# Cloud Market Insights

## Container Market Revenue

Source: 451 Research

**Application container market is growing fast with a CAGR of 40%**

- By 2020, a corporate "no-cloud" policy will be as rare as a "no-internet" policy is today (Gartner)
- **65% of companies use the cloud** and 18% plan to use it (KPMG)
- **25% of developers already use Docker** and 75% of them say that this drastically accelerated their dev workflow (Datadog & Forrester)
- **4 million developers have switched to cloud native development** and 7 million plan to within the next 12 months (Forbes)
- **More leading-edge IT capabilities will be available only in the cloud**, forcing reluctant organizations closer to cloud adoption (Gartner)

# Containers are The Future of the Cloud

docker

kubernetes

# How can I program container-based software?

There is no suitable  
tooling for this!

... until now

# DevSpace™

## Cloud-based Workspace for Cloud Native Development

Local Coding  
Experience

Cloud-Native  
Development

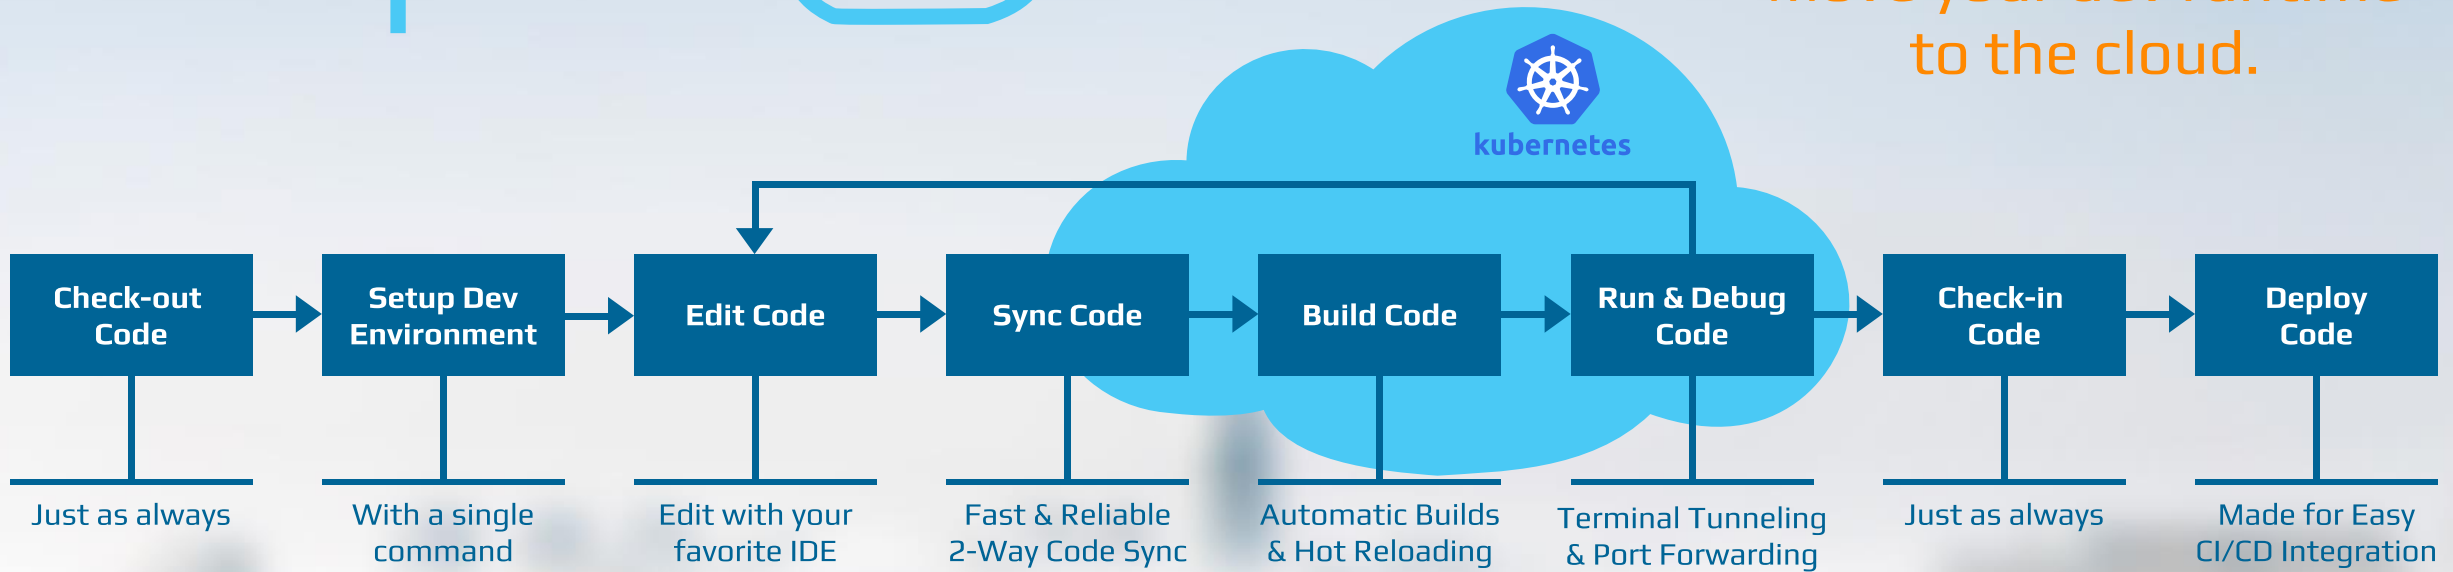

**2** Real-Time Code  
Synchronization

**3** Code Execution  
in the Cloud

**1** Local Code  
Editing

# DevSpace

Move your dev runtime to the cloud.

**Code locally but build, test and run code directly inside any Kubernetes cluster.**

## What do developers say about DevSpace?

“That’s awesome. Also **makes it a lot easier** to work from a lighter weight system too.”

*26<sup>th</sup> of September on reddit/selfhosted*

“**Very cool.**”

**Michael Hausenblas (RedHat)**

*30<sup>th</sup> of September on twitter*

“Looks **awesome.** [...] IMO dev experience is the weakest story Kubernetes has.”

*21<sup>st</sup> of September on reddit/kubernetes*

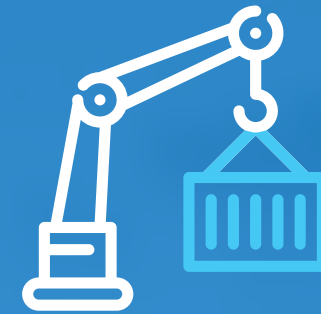

# DevSpace

Increased  
Productivity

Enhanced  
Collaboration

Improved  
Quality

# DevSpace

## DevSpace CLI

Open Source  
Command-Line Tool

[github.com/covexo/devspace](https://github.com/covexo/devspace)

## DevSpace Cloud

Commercial  
Cloud Platform

[www.devspace-cloud.com](https://www.devspace-cloud.com)

## Why Open Source?

- Our contribution to CNCF goals
- Increased trust in the software
- Faster adoption and distribution
- Community contributions

---

## What do developers say about DevSpace?

---

"This is **exactly what we've been looking for.**"

*22<sup>nd</sup> of September on reddit/kubernetes*

"Dang, that's **awesome.**"

*26<sup>th</sup> of September on reddit/selfhosted*

"This is amazing and **I can't wait to try it.**"

*2<sup>nd</sup> of October on reddit/kubernetes*
